Liz has asked me to reschedule for next week due to several people are working the Upper Animas incident. The meeting will be in the Teaming Room on the 6th floor #6228.

I would like to have a short meeting to discuss what data requirements we will share with the RPs Contractor. We would like to ensure some standardization across all Upper Animas SCRIBE projects such as project names, required fields populated consistently, and consistent valid values. This discussion will ensure these data are of the highest quality possible. I will get a room hopefully on the 5th floor. I will update you all on the location as soon as I hear back from Sandra.
